

CAPABILITY STATEMENT

THREE CEDARS TACTICS & TRAINING, LLC

Veteran-owned small business delivering security training, security consulting, and emergency medical instruction to federal, state, and local government.

CORE COMPETENCIES

SECURITY & TACTICAL TRAINING

Active-threat response, firearms instruction and qualification, de-escalation and defensive tactics, and security team development for agency and contractor personnel — from front-line staff to armed team members.

SECURITY CONSULTING & ASSESSMENT

Facility vulnerability assessments with prioritized remediation plans, emergency action planning, security policy development, tabletop exercises, and program testing.

EMERGENCY MEDICAL INSTRUCTION

Stop the Bleed, CPR/AED, gunshot and penetrating-trauma care, mass-casualty triage, and pediatric emergency response — taught to national standards and integrated with security response training.

DIFFERENTIATORS

- **Federal law enforcement command.** Led by a former chief of police with the U.S. Department of Veterans Affairs — training standards, policy, and officer safety at the command level.
- **Military leadership at scale.** A Lieutenant Colonel in the Alabama Army National Guard — planning, leading, and training large formations.
- **Integrated curriculum.** Security response and casualty care taught together, the way real incidents demand — one vendor, one standard, both disciplines.
- **Client-owned capability.** We train your people rather than renting you ours: programs are built to be run and sustained by your own personnel.
- **Nationwide delivery.** Based in Alabama; able to deliver at any CONUS location, with OCONUS performance considered case by case.

ORDERING & ENGAGEMENT

Available for direct award, subcontracting, and teaming. Engagements are scoped to the requirement — from single training events to standing program development and testing. Contact us for a tailored quote or statement of work.
